Purpose of collecting: This information form aims to compile statistics of high school graduates' tendency of furthering studies in the next academic year and obtaining employment, so as to study the career development of secondary school graduates, to plan for the human resources development for the Special Administrative Region, as well as to plan the various continuing education programmes and senior secondary vocational and technical education courses.

1. It is suggested to appoint a responsible person, for instance, the class-teacher, chief of school affairs, teacher responsible for graduates or alumnus association, etc., to carry out the long-term work of collecting and reporting the information of furthering studies and employment of the graduates.

2. It is suggested that the above responsible person gets the relevant information by using this form as survey record before/after graduation ceremony.

3. In case some graduates cannot be contacted, please select "data unspecified" in the item of "College entrance & employment", it is not required to fill in the remaining items to avoid delayed submission.

Item	Instruction
